

# PRUNING 101

Learn pruning techniques to encourage healthy tree growth and flowering (in the case of flowering plants). You will look at your tree in a whole new light and begin to tend your trees for future harvests and beauty!

This intensive, hands-on workshop - delivered in collaboration with Kootenay Food - dives into food forest planning and permaculture design principles. Focus on fruit trees and shrubs, and incorporates an in-class component and outdoor, hands-on instruction. Key takeaways include: good tree structure; intro to usage and maintenance of pruning tools; and best practices for pruning and maintenance to encourage production and flowering.

**INSTRUCTOR:** Gregoire Lamoureux

**WHEN:** March 10, 2018

**WHERE:** Selkirk College, Castlegar

**TIME:** Sat: 9 am-4 pm

**COST:** \$65 + GST
